Edvance360

Course Tools

Announcement/Alerts

Notify learners of announcements and alerts; learners will receive via Edvance360 LMS-SN, email and text messages.

Assessments & Surveys

Create, import, deliver, and track results from automatically-scored assessments and surveys.

Audio/Video Notes

Record audio/video feedback and announcements without having to edit or leave Edvance360; learners can play back audio/video recordings; automatically detects hardware available on computer.

BrowserLock

Powered by Respondus™, this prevents learners from cheating or users from stealing/copying content.

Calendar

Create calendar events by simply creating anything with deadline, which instantly puts it on the calendar and automatically on learner's personal calendars.

Dashboard/Homepage

Use time more efficiently by utilizing the Faculty Dashboard provided on the Edvance360 homepage; reduce clicks in the system and searches for items needing attention.

Video Conferencing

Use E360 Live!™ to deliver lectures and content via full video conferencing suite of tools integrated in the system.

eCommerce/Registration Module

Make course offerings available for self-registration and take, manage, and report payments.
