Edvance360

Communication Tools

Audio/Video Conferencing

Use E360 Live!™ to deliver ILT and webinars via full video conferencing suite of tools integrated in the system.

Audio/Video Notes

Record short audio and video notes as feedback to users or announcements within courses and communities.

Expert Blogs & Communities

Share thoughts, ideas, opinions, and experiences.

Collaborative Communities

Provide a collaborative space for users to work together toward a purpose; full suite of tools provided; can be made private, public within the organization, role-based, cohort-based, and mandatory.

Dashboard/Homepage

Use the dashboard provided on the Edvance360 homepage to reduce clicks in the system and searches for items needing attention or response.

ePortfolios

Build an ePortolio to share with peers.

Live Chat

Chat live via chat tool; all conversations recorded.

Mailbox

Send messages via Edvance360 Mailbox; users determine where and how messages reach them; tracking provided for read/unread and deleted/not deleted messages.

Mobile Access

Access Edvance360 via streamlined mobile site and apps.

Synchronized Personal Calendar

Automatically keep track of all user-related events.

Secure Social Network

Build relationships with other users in a secure, academic environment; enable employees to stay connected.

Wikis

Build and share wikis as part of collaborative projects.
