

Enterprise Solutions

Complete Enterprise Solution for Educational Institutions

LMS Suite

A complete suite of features, including course management tools, communication and collaboration tools, productivity and tracking tools, secure social network, ePortfolios, Learning Outcomes Management, rubrics, curriculum development tools, and compliance with instructional standards.

Collaboration Tools

E360 Live!™ provides real-time collaboration tools including whiteboard sharing, document sharing, live audio and video, chat, and more. Integration with other collaboration vendors also available. Asynchronous collaboration tools include Audio/Video Notes in-line recording, blogs/journals, communities, groups, messaging, synchronized personal calendar, wikis, and secure social network.

Implementation Process

Edvance360 Project Managers identify goals, metrics, milestones, and dependencies, provide an integration strategy and corresponding dashboard within the system to ensure accountability and transparency during a migration to Edvance360 LMS-SN. Support for automated and live integration with third-party APIs and vendors, including all Student Information Systems, legacy systems, and testing solutions. Single Sign-On (SSO) options include LDAP and other options. Automatically import courses from legacy CMS vendors including ANGEL Learning™, Blackboard™, and WebCT™. Fully import and export compliant with Common Cartridge/IMS standards; SCORM and custom-developed imports also available. Additional, custom features and functionality or integration with other legacy systems available.

Training

Live training provided to administrators, staff, and faculty along with a commitment to 95% or higher faculty usage rate; on-site training also available for an unlimited number of users; train-the-trainer model also provided. Recordings of trainings made available to clients at no additional cost.

Help Desk

Rave-winning technical support included at no additional cost; additional 24/7 /365 support to students available at an additional price.
